FIGURE 9

This image is a high-contrast, black-and-white scan of a textured surface, likely a book cover or endpaper. The left side features a vertical strip of lighter, more granular texture, possibly representing a hinge or a different material. The right side is dominated by a darker, more uniform area with prominent horizontal streaks and noise, suggesting significant degradation or damage to the original surface. The overall appearance is that of a heavily worn and scanned document.
